Dear Hiring Manager,

I am reaching out to express my interest in the color position at Method Studios. My years of experience as a video editor and my enthusiasm for color grading make me a perfect candidate for this position.

While in film school, I developed a special interest in color grading, which led to me learning the ins and outs of DaVinci Resolve. From my previous experience as an editor, I had already a good understanding of codecs, formats, workflows, and other technical aspects, which made the learning curve a little less steep for me. I want to keep growing as a Colorist, and I think getting the opportunity to assist a professional is the natural path to learn the craft. Hence, my interest in this position.

I'm proficient in Davinci Resolve, Adobe Premiere, After Effects, and Final Cut Pro 7, and even though my experience with Baselight has been very limited, I'm a fast learner with a knack for discovering new programs and a lot of enthusiasm for color grading, so I'm confident that It won't take me long to get my way around it. I have a serviceable attitude, so I will be very comfortable with performing a supporting role. My communication and organizational skills paired with my ability to multi-task and work in team environments make a perfect fit for this role.

I strongly believe that my skillset and hardworking attitude make me an ideal candidate for your team. I would love to have the opportunity to bring these assets to your organization. I look forward to hearing back from you and discussing my candidacy.

Best,

Marcos Hernandez-Mago
