Dear Hiring Manager,

I am writing to express my interest in the Dailies Operator position at Harbor Picture Company. My years of experience as a video editor and my enthusiasm for the technical aspects of post-production make me a perfect candidate for this position.

After working for years as a video editor, I had the opportunity to go to Film School, where I developed a more technical and holistic appreciation for post-production. I already had a good understanding of video standards, codecs, formats, color spaces, and other technical aspects, which made the learning curve a little less steep for me, but I became more particular about the workflow. I want to keep learning about post-production and eventually become a Colorist. Hence, It's only natural that I have a special interest in a position like this where I can make good use of my technical knowledge while I have the opportunity to keep growing as a professional.

I'm proficient in Davinci Resolve, Adobe Premiere, After Effects, and Avid Media Composer, and even though my experience with Baselight and hosting platforms like DAX, PIX, and Moxion has been very limited, I'm a fast learner with a lot of enthusiasm for discovering new programs, so I'm confident that It won't take me long to get my way around it. I have a serviceable attitude, so I will be very comfortable performing a supporting role. My communication and organizational skills paired with my ability to multi-task and work in team environments make a perfect fit for this role.

I strongly believe that my skillset and hardworking attitude make me an ideal candidate for your team. I would love to have the opportunity to bring these assets to your organization. I look forward to hearing back from you and discussing my candidacy.

Best,

Marcos Hernandez-Mago
